New York: IID Thrown into Deli, 1 Injured

On 30 October 2021, at approximately 0753 hours local time, New York City Fire Department crews and New York City Police Department officers responded to a deli in Brooklyn after a 38-year-old man threw an improvised incendiary device (IID), described as a Molotov cocktail, through the front door. The suspect attempted to ignite and throw a second IID but was stopped by a witness, who knocked the IID out of his hand. One deli worker suffered injuries. ATF agents responded to assist while fire crews extinguished the blaze. The suspect was arrested and charged with arson, assault, reckless endangerment, criminal possession of a weapon, and criminal mischief.

Iowa: Man Found with IEDs, BMM Found in Residence

On 3 November 2021, Burlington Police Department (BPD) officers responded to a Burlington residence for a report of a disorderly person and discovered a 38-year-old man in possession of several IEDs. Officers arrested the suspect after a brief chase. No additional device details have been released. The Iowa State Fire Marshal's Office responded to assist, confirmed the devices were viable, and conducted render safe procedures. On 4 November, BPD officers searched the suspect's home and discovered undisclosed bomb-making material (BMM) used to make the devices. The suspect was charged with three counts of unauthorized possession of offensive weapons, three counts of interference with official acts resulting in injury, and possession of marijuana.

For more information about efforts to prevent bombing incidents using precursor chemicals and IED components, please visit the **Bomb-Making Materials Awareness Program (BMAP)** website at <https://www.cisa.gov/bmap>.

Washington: IED Detonated in Woods near Homes

On 3 November 2021, at approximately 1300 hours local time, Lacey Police Department (LPD) officers responded to a wooded area north of Yelm Highway for a reported explosion and discovered a partially detonated IED. No further device details have been released. There were no reported injuries or damage to property. The explosion was captured on a nearby home's surveillance camera. The investigation is ongoing.

¹ **The Infrastructure Categories** listed in this report are derived from the DHS Critical Infrastructure Sectors:

Chemical	Financial Services	Healthcare and Public Health
Commercial/Retail	Government Facilities	Information Technology
Communications	• Courthouse	Nuclear
Critical Manufacturing	• Federal	Transportation Systems
Dams	• State	Water
Defense	• Local	Non-Critical Infrastructure
Industrial Base	• National Monuments	• Other (e.g., faith-based facilities)
Emergency Services	• Parks	• Postal and Shipping
Energy	• Schools	• Private Residence
Food and Agriculture		

DISCLAIMER:

This product provides a statistical analysis of available open-source reporting of explosives-related events, bomb threats, and improvised explosive device (IED) activity in the United States and its territories. Due to the nature of open-source intelligence (OSINT) collection, this data may not reflect all bomb-related incidents or casualty figures during the stated period and does not include classified or law enforcement sensitive information. Incidents that received a response from authorities, law enforcement, and/or first responders are frequently reported only through official channels, such as locally held police logs. Therefore, the information may not be available and/or captured in the data used to compile this report.

² **The Incident Types** used in this report are defined as follows:

- Bomb-Making Material (BMM): Materials commonly associated with IEDs but which were not assembled into a functional device at the time of discovery; this category includes both discoveries and thefts
- Bomb Threat: An intentionally false claim of the presence of a bomb at a certain location
- Device Discovered: The discovery of a hazardous device before the device was emplaced at the targeted location
- Device Emplaced: The discovery of a hazardous device emplaced at a targeted location
- Device Functioned: A hazardous device functioned
- Suspicious Package Discovered: The discovery/examination of an ultimately non-hazardous package

³ **The Federal Regions** used in this report consist of:

Region 1	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont
Region 2	New Jersey, New York, Puerto Rico, U.S. Virgin Islands
Region 3	Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia
Region 4	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee
Region 5	Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin
Region 6	Arkansas, Louisiana, New Mexico, Oklahoma, Texas
Region 7	Iowa, Kansas, Missouri, Nebraska
Region 8	Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming
Region 9	Arizona, California, Hawaii, Nevada, American Samoa, Guam, Trust Territory of the Pacific Islands
Region 10	Alaska, Idaho, Oregon, Washington

NOTE: Incident map and circle graph indicate Federal regions utilizing the same colors. Graph reads clockwise from top.
